

Saira Fatima

Passionate for creative software development

saira030854@gmail.com

Summary

Doing software engineering from NUST. web designing,image processing,graphic designing,software development and logic designing are the skills that attract me the most.

Also interested in Social work.Part of may projects of Shirkat Gah working for human rights especially on women rights.Also working with Sudhar Development Organization to empower youth providing them skills like critical thinking and encouraging them to work for society.

Have been part of National Outreach Programme at Lums

Experience

Member

January 2014 - Present

Shirkat Gah is a women's rights organisation based in Lahore, Pakistan, and acts as the regional office (RCO-Asia) of the international network Women Living Under Muslim Laws. It has provided support to women who have been subjected to forced marriages and has organised and campaigned around cases of 'honour killings' of women. It has also documented customary practices, including 'honour crimes', which result in violence against women throughout Pakistan. Shirkat Gah also has legal advice centres, researchers on health/reproductive rights, as well as VAW and equality under the law.

Private Tutor
